HIS DECISION IN TWO CASES. The Schooner E. W. Wilson Waterlogged The Ballard Will Case-Odd-Fellows' Celebration-Denths in Norfolk,

[Special telegram to the Dispatch.] Nonpolk, Va., March 19 .- To-day in the lice Court, in the case of the obscene threatrical pictures, when the lessee of the Opers-House (A. G. Lewis) side had been eard the Commonwealth's Attorney said he could see no reason why Mr. Lewis should be punished for this offence. He had said that the bills had been put up without his knowledge, and that he was willing to cover them up, showing that it and not been his intention to do anything that was contrary to the law. He could see no evidence that would convict Mr. Lewis before a jury, and for this reason he asked that the case be dismissed, and that instructions be given to the police to arrest any persons offending in the future.

FUTURE OFFENDERS. It was not so much the intention of the gentlemen who had procured the warrant to punish for pastoffences as it was the intention to provide against future offences.

Police-Justice East, before whom the case was tried, said that there was a case against S. S. Kelly for the same offence, and that in the new case more evidence might be brought out that would bear on Mr. Lewis's case, and that he would withhold his decision in the first case and postpone that of Mr. Kelly's until to-morrow.

A CULIOUS WILL CASE.

The Ballard will case is now on trial in the Circuit Court of Norfolk county and excites considerable interest. A large number of witnesses are in attendance and able counsel are employed on both sides, and the trial will last several days. Mr. L. R. Ballard was a wealthy and prominent trucker of Churchland and had three children—two sons and a daughter. The daughter married against the wishes of Mr. Ballard and he disnherited her and left all his property to the sons. Not long after Mr. Ballard committed suicide by shooting himself through the head. The daughter's husband brought suit on the ground that Mr. Ballard was of unsound mind when he made the will. The younger of the sons, a made the will. The younger of the sons, a boy, recently died and willed his share of property wholly to his brother. ACCEPTED.

PETERSUEG. VA., March 19.—The case of
the Commonwealth vs. John Warrenton,
the young man charged with the felonions cutting and beating of Detective James M. Young
on the night of March 11th, was called in the
Mayor's Court for examination this morning, and
some interesting facts in connection with the case
not heretofore made public were brought out.
Mr. Young was unable to be present, but there
were witnesses who knew enough about the case
to justify an examination, especially as counsel were witnesses who knew enough about the course to justify an examination, especially as counsel were present with a view to asking for ball.

Dr. B. F. May, Mr. Young's physician, was asked by the Mayor to make a statement of his patient's condition. Dr. May said: "I think Mr. Young may get upon his feet and be able to walk is eight or ten days, but as far as his mental condition is concerned I can give no definite answer."

The dirk that was picked up by Young's side is a large lvory-handle knife with a double-edged blade. It was perfectly clean and with not a stain upon it. Looming Up-The Clerkship.

[From Our Regular Correspondent.] WASHINGTON, March 19.—The city is full of Virginia Republicans and they are doing their utmost to rake in a few offices for the men high in favor with the ring leaders. This morning a large delegation called both at the White House and at the Department of Justice in the interest of Judge Paul for the new circuit judgeship. General Edgar Allan called with the delegation upon the Acting Attorney-General,
Judge Taft, and the claims of Judge Paul
were laid before the department with considerable emphasis by some of the visitors.

OPPORING JUDGE LEWIS.

This movement in the interest of Judge Paul was evidently started to head off Judge Lewis, of the Virginia Court of Appeals. Up to a few days ago he was believed to have a fair chance of success, but the Mahone people are aggressively opposing him for the reason that the whole Lewis influence in the State has been for some years thrown against the Mahone wing of the party in the various contests.

A Decision Against Certain Railroads

Touching Discriminatory Rates. [By telegraph to the Dispatch.]

Washington, March 19.—The Interstate Commerce Commission to day in an opinion by Commissioner Veszey decided the case of Hamilton and Brown, of Kramer, Ga., against the Chattanooga, Rome and Columbus Railroad Company, the Louisville and Nashville Railroad Company, and the Nashville, Chattanooga and St. Louis Railroad Company in favor of the complainants.

The points decided are briefly as follows: The points decided are briefly as follows:

1. The rates on freight from interstate points to Kramer, Ga., via the Chattanooga, Rome and Columbus railroad are made by taking the through rate to recognized "basing points" and adding thereto that local rate which will give the lowest combination. This method of determining a rate is criticised and, as applied to such traffic to Kramer, operates as an unjust discrimination against that locality.

2. All the carriers participating in the traffic, the rates for which were questioned in this proceding, were not made parties and the case, while showing that the through rates were discriminatory and unjust, failed to disclose sufficient facts upon which an accurate decision could be based and accordingly it was held that the carriers who were parties to the proceding be required to adjust their respective tariffs so as to avoid discrimination against Kramer, and that the carriers who were not parties be summoned to appear and show cause why a like order be not issued as to the business in which they participate, unless their tariffs are voluntarily adjusted so as to avoid the discrimination complained of. adjusted so as to avoid the discrimination complained of.

What is Scrofula

It is that impurity in the blood, which, accumulating in the giands of the neck, produces unsightly lumps or swellings; which causes painful running sores on the arms, legs, or feet; which developes ulcers in the eyes, ears, or nose, often causing blindness or deafness; which is the origin of simples, causerous growths, or many other coverage blindness or deafness; which is the origin of pimples, camerous growths, or many other manifestations usually ascribed to "humors." It is a more formidable enemy than consumption or causer alone, for scro's la combines the worst possible features of both. Being the most ancient, it is the most general of all diseases or affections, for very few persons are entirely free from it.

How can it be cured? By taking Hood's Sarssparille, which, by the cures it has accomplished, often when other medicines have failed, has proven itself to be a potent and peculiar medicine for this disease.
